

JKLU SANKALP 2027

International Conference on Sustainable
AI and Next-Gen Knowledge, Automation,
Learning & Prediction

ORGANISED BY

JK Lakshmipat University (JKLU),
Jaipur in collaboration with
Asia University, Taiwan

Hybrid

12-13 March 2026

JK Lakshmipat University, Jaipur, India

About the Conference

JK LakshmiPat University (JKLU), an initiative of the JK Group with a 140-year legacy of excellence, proudly presents SANKALP 2027, an International Conference on Sustainable AI and Next-Gen Knowledge, Automation, Learning & Prediction. Organized in association with the Institution of Engineering and Technology (IET), this conference brings together global researchers, industry leaders, academicians, scientists, and policymakers to explore the transformative potential of artificial intelligence across disciplines.

Accredited with an 'A' grade by NAAC, JKLU is at the forefront of innovation, blending academia with industry through interdisciplinary programs in engineering, management, and design. The university regularly hosts international conferences, guest lectures, mentoring programs, and industry-focused conclaves.

Conference Theme

The JKLU Sankalp conference is centered on the theme "AI for Sustainable, Intelligent, and Human-Centric Digital Transformation". The conference aims to bring together researchers, academicians, industry experts, innovators, and policymakers to explore the transformative potential of Artificial Intelligence in addressing global challenges and shaping a sustainable future.

It provides a multidisciplinary platform covering sustainable AI, generative AI, intelligent computing, healthcare, education, smart societies, VLSI, and emerging technologies. By fostering collaboration across diverse domains, the conference seeks to promote responsible innovation, ethical AI, and cutting-edge research that contributes to resilient, inclusive, and technology-driven solutions for society, industry, and the environment.

Why Sponsor JKLU SANKALP 2027?

It's a premier international platform that brings together:

- ▶ **Global researchers and academicians** from leading institutions worldwide
 - ▶ **Senior industry leaders and decision-makers** from AI, technology, and engineering sectors
 - ▶ **Policymakers and government representatives** shaping the future of technology governance
 - ▶ **University leadership** including the Vice Chancellor, deans, and department heads
 - ▶ **Emerging talent** from JKLU's interdisciplinary programs in engineering, management, and design
-
